

# Buckhorn Lake Lodge Will Be Dedicated Tomorrow

Eastern Kentucky will officially claim one of its prime tourist assets Friday afternoon at the new Buckhorn Lake State Park when Governor Edward T. Breathitt dedicates the new \$666,000 Buckhorn Lodge.

Along with Governor Breathitt in the speech making ceremonies will be former Governor Bert T. Combs, State Parks Commissioner Robert D. Bell, and Highway Commissioner Henry Ward. The new state park was started in Combs' administration.

The state park also consists of a \$10.5 million dam and lake, dedicated on September 10, 1960, before an audience of approximately 3000.

According to the lodge manager, Mr. Kenneth Kirchner, the lodge is 'ready and raring' to go for the big dedication tomorrow. Over 78 per cent of the rooms have been occupied every day since the opening.

on July 15, Kirchner noted.

The Buckhorn Lake State Park is located off Kentucky 28 near Buckhorn and has a new 3.4-mile road access to the new lodge and park.

New facilities include a boat dock, beach, bathhouse, and picnic shelter building, plus a new residence for the superintendent. Developments planned for the future are a swimming pool at the lodge and housekeeping cottages.

Festivities will begin tomorrow morning at 11 o'clock and open house will last throughout the day until 6:30 p.m., when a buffet supper will be served.

Master of Ceremonies will be Mr. Robert Bell, Commissioner of Kentucky's State Department of Parks.

At 12 noon the Buckhorn Boat and Ski Club will

present a water ski show and at 1 p.m. a musical will be presented under the direction of Mr. Harlan Stone, band director at Hazard High School.

Speakers in order beginning at 2 p.m. will be Mr. Henry Ward, former chairman of Kentucky State Parks Board; former Governor Bert T. Combs, and Governor Edward T. (Ned) Breathitt.

The invocation will be given by Rev. T. H. Harding of the Hazard First Baptist Church and the benediction by Rev. E. Tipton Carroll of the Hazard Christian Church.

The lodge, which has been opened for guests since July 15, has 24 rooms and overlooks beautiful Buckhorn Lake.

All the luxurious guest rooms have two double

beds and other modern furniture, tile bathroom, television, and telephone. Each room has its own private patio overlooking the lake.

The 200-seat dining room is composed of two sections which can be partitioned by sliding doors for private conferences or luncheons.

Offices, meeting and recreation rooms, a gift shop and the lobby is included first floor facilities.

Since the \$19.9 million State Park expansion program started in 1960, the Buckhorn lodge is the 10th to be completed. The most recent lodge to be dedicated was the Natural Bridge State Park near Slade.

Sixty persons are presently employed by the new lodge including four cooks and a chef. Mrs. Mona Kirchner is the dining room supervisor and Mr. Lonnie King has been employed as the chef.

## River Fill Violation Is Charged

A road builder was charged yesterday with encroachment upon the floodway of the Kentucky River in violation of a Perry Circuit Court action for new law that provides \$1,000 a day for the 23 days the alleged encroachment has been

in the process of construction. An injunction was obtained from Circuit Judge Don Ward forbidding continuation of the work until the matter is settled in court.

### It's A 2 1/2 Million Mile

The Adams Company is contractor for a \$2.5 million road-building project between Hazard and Combs, reputedly the most expensive single mile of highway ever built in Kentucky.

At the Combs end of the project, Adams is leveling off an area overlooking the north fork of the Kentucky for construction of a black-top mix plant.

The suit, filed by County Attorney Calvin Manis for the State attorney general's office, charges that Adams has been pushing "tremendous quantities" of earth, rock, and other matter into the floodway and has raised the elevation of the floodway up to 70 feet, the work has been done, the petition alleges, in violation of a law that became effective June 18.

The stamp program is an expanded version of one that has been tried experimentally in more than 40 communities, including Eastern Kentucky. Under this plan it could be extended nationwide, wherever state and local governments agree to take part.

Almost any ordinary food products can be bought with the stamps except those identified on their packages as having been imported.

The stamps are not good for alcoholic beverages or tobacco products.

Final Congressional action comes with House concurrence in Senate amendments to the stamp bill as passed by the House in April. This was done by unanimous consent of the members.

A main complaint against the Senate's version of the bill was that it precludes free distribution of surplus commodities in any community participating in the food-stamp plan. However, the choice will be left to local officials.

And in case of emergency situations as determined by the Secretary of Agriculture, both programs could be used.

At the construction scene, T. A. Jones, supervisor for the work, said his men have been at work for three days removing the earth and rock that had been pushed into the river.

"Within another week," he said, "the objectionable matter should be cleared out of the floodway."

Manis said the court will judge whether the removal job has been thorough enough.

Order is punishable by law.

Next year the ceiling would be \$100 million. Up to \$200 million could be appropriated in the third year of the plan's operation. After that Congress would have to renew the authorization.

## A New Era Dawns

We sincerely believe that the official dedication of Buckhorn Lake tomorrow will precipitate the dawning of a new era for the intrepid citizens of Perry County and Eastern Kentucky. We are in need of a new era, one in which our men have work, our children have clothes, food, and education, and all citizens as a county, are united against the agitation and misery of the past two years, caused not by Perry Countians, but by outsiders.

Buckhorn Lake can help blaze the way to this new era because it accomplishes several things. First, it offers the people of our county recreational and park facilities second to none; this is something our county has sorely lacked since its founding. Previously, a boating or picnicking outing would take a journey of at least sixty miles. Now it is literally around the curve.

Secondly, it will bring good publicity to Perry, something our county has not had in many years, with the exception of athletic teams. Thirdly, it could become a major tourist attraction, and tourists mean a turnover in money, money that is coming in for a change, not going out.

And, lastly, it will offer tourists a jumping-off place to other state parks and attractions in Eastern Kentucky, such as Jenny Wiley State Park at Prestonsburg, and the proposed Kingdom Come Lake near Cumberland, deep in the majestic region of Pine Mountain.

We are all aware of tourist economics, so envision the following: (1) a four-lane highway from the central part of the state straight into Hazard, reducing a three-hour drive to ninety minutes; (2) a lake situated high in the mountains near Buckhorn with a magnificent lodge, beautiful scenery, and complete lake facilities; (3) the continued drawing power of La Citadelle, atop the mountain overlooking the county seat; and, (4) Magic Mountain, a modern dream and tourist magnet.

The person with foresight, and we are blessed with many such people in our county, can look at this and realize the vast potential it entails and promises our area.

Some, however have a narrow vision and cannot see this potential. Others are skeptical, asking, so what, does it provide me with a job? The answer is simple, think! Tourists mean jobs for many Perry Countians, that is obvious, but delve further. A healthy tourist area, readily accessible to the outside, abundant in resources (coal, timber, and people) will be attractive to industries, and industries mean employment for many.

It may take a few years, but the potential we have, the chance we're getting to change from a depressed area to a progressive community, the willingness and dedication of our citizens to throw off the poverty, these are awesome factors in our behalf. There is a rugged spirit in our people that adver-

sary cannot overcome.

The preceding is what we envision from the opening of Buckhorn Lake. We are optimistic for our county. Our future is no longer bleak, regardless of what various agitation committees claim. There is a life to be had in this county for those with the courage and heart to stay and help. We don't want or need the faint-hearted, the skeptics, and the lackadaisical.

The late President, John Fitzgerald Kennedy, summed our feeling when he said, "This is a time for courage and a time of challenge. Neither conformity nor complacency will do. Neither the fanatic nor the fainthearted are needed. Let us stand together with renewed confidence in our cause." These eloquent words of a great man should ring throughout our mountains as a dedicatory message for a renewed effort to help our area progress and grow.

All of our development, both realized and potential, cannot be attributed to one man; it has been a community project. But there is one man who deserves special mention.

Former Governor Bert T. Combs had the vision and faith to open up the mountains and give us our chance, a chance our citizens are determined to make the most of. This newspaper is a staunch admirer and supporter of Bert Combs. A finer man, a better person, has never and will never sit on Capitol Hill in Frankfort—unless Gov. Combs runs for that office next time around.

We urge Perry Countians to attend the dedication of the lake and lodge, not only to honor the man who made it possible, but to get in on the ground floor of Perry's progression upward. Buckhorn Lake is on the ground floor of our forward surge. Buckhorn Lake is a boon to Perry County, it is a boon to the mountains, and most of all, it promises the dawning of a new era for our citizens.

### A Literary Loss

There will be no more new adventures for special agent 007 James Bond, of his Majesty's Secret Service. His future died Wednesday with his creator, Ian Fleming, of a heart attack in a Kent, England Hospital.

Fleming was a genius of the mystery-thriller and his James Bond character has grown to unbelievable heights, perhaps rating as the top fictional character of the past two decades.

It was an exciting world of the cloak-and-dagger, of dark streets, bullets and knives, of the invincible Bond that Fleming opened up to us.

Each of his nine Bond books have soared quickly over a million copies in sales. The two Bond movies, "Dr. No" and "From Russia With Love" have been fantastic box office smashes.

We mourn the passing of a talented writer, a man who, by his penmanship, took many people into fascinating worlds and provided hours of pleasure for the millions of fans. He leaves behind a legacy of adventure we will not soon forget.

## The Readers Write About Outsiders In Our Community

### Herald Editorial Commended

The Editor

Hazard Herald

You are to be commended for your most recent editorial endeavoring to alert the citizens of this area of the seriousness of the presence of "outsiders" who are here under the pretense of helping to bring about full employment for our people.

May I concur with you by saying that we have here in Perry County the best Americans to be found anywhere. Our people are freedom loving Americans and become alarmed easily when that freedom is threatened. The name of our town and county points to the fact that we revere the names of those who have helped to establish this government for the people and by the people and the cemeteries all over Perry County are dotted with markers marking the graves of those who fought to preserve this government for a free people.

The life that was given, the sacrifice that was made; make it possible for those who do not love people with a genuine love to come into our area and confuse many good people by telling them that our economic problems are the results of carelessness and graft on the part of a few who they say control this area.

Perry Countians must not fall prey to outside influences. We are capable of solving our problems by uniting as Perry Countians working with our elected officials on all levels of government, we must not be disillusioned into thinking that our problems that were not created overnight can be solved overnight. We must be willing to work hard and patiently believe

in the potential of our region and our people.

May I suggest to the good people, who are being misled, to join forces with your elected officials as your leaders. Work conscientiously with them, and if efforts prove futile, use the good old American way of providing new leadership—get out and vote for a Perry Countian who may or may not do a better job, but above all abide by the decision of the majority.

Very sincerely yours,

### Appalachian Committee Criticized

Editor,

The Hazard Herald

As one walks down High Street he will notice just across the street from the Department of Economic Security Building a new office which opened only a few months ago. This office has an unusual title printed on the window in big RED letters. This title reads "Appalachian Committee For Full Employment." This title, although new to our section, is not as unusual as the characters who swarm like ants around this office.

It does not require close observation to ascertain that these characters are not native Perry Countians or even Kentuckians. They descend upon our fair county like packs of wolves and their license plates identify them as coming from various states.

Their speech, their dress, and their activities place them

in an unusual category. Neighbor, let's take time and ask ourselves a few questions about this unusual committee and its unique workers. The sign on the door says the committee is "For Full Employment."

Has its action been in keeping with this slogan? Just who are all these out-of-state characters? What is their real mission as they descend upon Perry County? Are they here as angels of mercy to help all of us poverty stricken, ignorant mountaineers?

Who in our visitors' minds, have become incapable of managing our own business? What Churches do these visitors attend? They have been holding many meetings throughout Perry County. Just what kind of meetings are these and for what purpose are they held?

These are only a few questions we need to ask ourselves about these strange characters.

The writer had the opportunity to attend one of these "Full Employment" meetings which is sponsored by the Appalachian Committee for Full Employment. The chairman of this committee, who is a native of Perry County, was at this meeting.

What was the meeting for?

All the writer saw and heard was an open and critical attack upon the schools of Perry County. What relationship is there between "Full Employment" and an open and destructive attack upon the schools of Perry County?

The chairman was asked by one citizen and I quote: "Mr. chairman", asked the citizen, "If you believe in Full Employment for Perry Countians why do you not employ some of our native boys and girls to do the work these outsiders are doing?" The reply to this inquiry was this: "We have no

one in this section qualified to do the work we are doing."

After some observation and thought, I fully agree with the chairman in that we have no boys and girls who can do the work this bunch of outsiders are doing. Ladies and Gentlemen, the reason our boys and girls can not do this work is simple. Our homes, schools, and Churches are training our people to be citizens of a God-fearing, Democratic Society. Therefore, they are not trained in the art of trouble-making.

The writer has observed very closely the growth and improvement in our schools for the past few years. Therefore, I see no grounds for these outsiders or insiders to criticize our schools. There is absolutely nothing constructive or helpful to our schools, our unemployment situation, our society, our Churches, or our way of life taking place in these meetings. It is all destructive criticism which needs to come to an end.

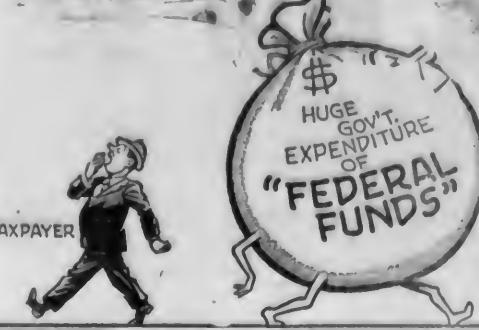

Consider the program which the Federal Government has initiated to give employment to those who cannot find work. Did not George Goss, who is one of the outside gang, attempt to disrupt this program? Is this aiding employment? This is plain trouble-making as anyone must agree.

Fellow Perry Countians, have we become so ignorant, so stupid, and such poor citizens that we can no longer manage our own affairs and are forced to call upon such characters as George, Pete and Sally to re-organize our whole way of life? I, for one, say we have not, and I strongly believe these characters, and all who sponsor them, should be investigated thoroughly and asked in strong language to leave our county with a one-way ticket, and by the nearest exit.

#### Baseball Compliments

Letter to the Editor:

Little League and Babe Ruth season for Hazard is over. Hazard did not go all the way in the final tournaments but we played fine ball and showed good sportsmanship. Two hundred and forty boys in Perry County took part in the program. Some of the boys were not fortunate to have so much help from coaches as old others but each boy improved and learned more about the game. The big thing, I think, is the fun they had in the open air and learning to get on with others; comradeship, teamwork and character developed.

The spectators were treated with some real fine ball playing night after night. Over-all manager, Mr. William Craft, did a splendid job and gave unselfishly of his time. Others, by the score gave liberally of their time and talent in working with the boys. As a citizen and spectator I would like to say: "HATS OFF TO MR. CRAFT AND ALL THOSE WHO HELPED TO MAKE THE SEASON A SUCCESS".

Among the others will be found such names as:

Joe Turner, Wm. Turner, Sammy Maggard, Gene Gayheart, Jimmy Landon, Tommy Ritchie, Happy Cox, Ty Cobb (Wheeler Goins), Shockey Bowling, Earl Duff, Ray Landon, Jerry Wells, Frank Medaris, George Anderson, Claude Crook, Barney Baker, (Post-office Barney) Howard Lusk, Melvin Clatts, Tom Berryman, Smokey Jones, Mosco Blackburn, Homer Osborne, Clarence Gallaher, Julius Laslo, Lyle Shoemaker, Irman Wirtz, Clay Ratliff, Charles Hammonds, Rufus Bingham, Tommy Turk, Jitter Fouts, Don Chaffins.

There may be others whose names escaped me.

The mothers of some of the players did fine work operating the concession stand and doing other worth-while things. Among them will be found the names of:

Mrs. Bill Craft, Mrs. Thelma Napier, Mrs. Tom Berryman, Mrs. Junior Moore, Mrs. Barney Baker, Mrs. Howard Lusk, Mrs. Maxine Davidson, Mrs. Nathan Turner, Mrs. Melvin Clatts, Mrs. Wallace Cornett, Mrs. Lee Greer, Mrs. Glenn Maggard, Mrs. George Anderson.

Interested spectator,

NOTE—We here at The Herald have tried to stimulate interest and are proud of our Little League teams.

### Tongue-In-Cheek Praise

Letter to the Editor

An open letter to Perry County Judge, Babe C. Nolans

"Dear Judge Nolans:

I am not satisfied with your efforts on behalf of Perry County during our endeavor to get help to help ourselves in our present straits. I have it on good authority that:

(1) You spent \$100.00 of the Perry County taxpayers' money to go to Washington and get Perry County approved for the Food Stamp Program. This only brings in approximately \$700,000 yearly for these needy people.

(2) You spent around \$1,000 of the taxpayers' money in travel expenses to get us a new courthouse valued at one-half million dollars.

(3) You finally managed to get several hundred unemployed fathers working and off relief rolls to the tune of one-half million dollars yearly. I am still looking for your travel expenses on that item.

These total only \$1,700,000 for the benefit of Perry County.

What is your excuse for staying in office? Why don't you help Perry County?

## The Governor Speaks

### Let's Look it Over

— by —

Edward T. Breathitt

Frankfort—

There are many satisfactions of being the chief executive officer of a state—the opportunities it gives to help in a meaningful way in economic development and the creation of new jobs, to help in the conservation and best use of natural resources and scenic beauty, to participate in the plans for new roads and new community facilities such as health centers, schools, small lakes and recreation areas, and to have part in programs in which State participation helps each local community become a better place to live.

And though all these matters are important (after all, they are what State Government is all about), one of the warmest and most heartfelt satisfactions in being governor of Kentucky is something very simple—the opportunity it gives to meet fellow Kentuckians.

This is what I have found in my first eight months of office and I'm sure it's been true of all my predecessors way back to Isaac Shelby in 1792 when the Commonwealth first came into being.

It's one of the reasons why "portable State Government"—taking State Government for a day to communities in every part of Kentucky—is so enjoyable.

Of course that's not the reason for taking State Government to the people. The idea in continuing this plan initiated by former Governor Bert Combs is to give local citizens, especially those who cannot come to Frankfort, an opportunity to explain in detail the problems their community faces and to give those of us in State Government an opportunity to do what we can to help the community solve these problems.

Just recently in Cynthiana I held my second "portable government" session and was reminded again and again of the satisfaction of meeting Kentuckians face to face to discuss problems or just for a friendly chat.

During a brief lull in the day's activities

I was catching up with some paper work at my borrowed desk in the comfortable law library of Circuit Judge John Lair in the Harrison County Courthouse when a man whose erect carriage belied his years came quietly in

and sat down.

I looked up and asked "What can I do for you, sir?"

He smiled and answered, "I don't want anything, Governor. I just came in to shake hands with you."

He was William Alexander Penn, 80, who formerly graded burley tobacco at the market in Hopkinsville, my home town, and who knew my father, Edward T. Breathitt, also a tobacco man. Meeting people like Mr. Penn is one of the pleasures of "portable government."

Of course, most of the visitors have a problem they need help with. In Cynthiana, for instance, there was one delegation asking the State to help in securing an appropriation in the 1965 Federal budget for planning for the proposed Falmouth flood-control reservoir on the Licking River. This project would effect eight Kentucky counties and another delegation came to oppose construction of the reservoir.

I explained in talking to both opponents and advocates of the Falmouth project that I flew over the area with President Johnson during the severe floods last March and saw at first-hand the thousands of water-logged acres and flooded homes and roads. I explained that one of my campaign pledges had been to cut flood damage in Kentucky to better utilize the state's abundant water resources. For these compelling reasons I am an advocate of the flood-control reservoirs, including the one at Falmouth, but I intend to make sure that the State does all in its power to see that those persons displaced by the project suffer no financial loss.

## Floral Arrangements Should Look Natural

### DO'S AND DON'TS OF FLOWER ARRANGING— FRESH PLANT MATERIALS

Artistic Arrangements should look like living fresh flowers, not stilted, unnatural, pinched and pushed still-life groups. Thought must be given to the natural growth of your plant material, to the setting you plan for the finished arrangement.

The first step is to define what you like most about your material — its most attractive with a skeleton outline and feature. This can be color, form, or texture. Emphasize focal point: this point in the choice of a container and have the setting in mind to enhance these features.

**Do's**

Do select a good flower holder, whether it be chicken wire or sharp pin holder — see that it is firmly anchored with clay before you begin.

Do use flowers that have been soaked in tepid water and

properly hardened.

Do begin your arrangement with a skeleton outline and build in toward the center or focal point.

Do make your longest stem approximately one and one-half times the height or width of your container.

Do make every flower count to its fullest advantage.

Do use smaller, lighter flowers on the outside and larger, darker flowers toward the center front.

Do combine your flower shapes with consideration — spikes to give height, round flowers to create focal point, and flower clusters to fill in empty spaces.

Do keep your best material for your focal point.

Do use interesting foliage for good line and separation.

Do trim your material, if it gives you better line and a clearer, cleaner look.

Do check your arrangement when it is complete.

Do use the right container, for it is part of the whole picture and should complement your flowers.

**Don'ts**

Don't use flowers all one length.

Don't stick to the letter of any generally accepted rule. Use your imagination.

Don't cut a stem until you are sure it must be shorter.

Don't spread your stems out at the base; all lines should appear to come from approximately the same point.

Don't ignore texture; containers and flowers should be related — such as Zinnias in earthware.

Don't use equal amounts of different flowers; when combining them, allow one type to predominate.

Don't spot your colors by mixing them in a salt-and-pepper fashion. Allow one color to predominate.

Don't allow your holder to show.

Don't keep adding bits and pieces that are lying around; leave your arrangement alone when you are first satisfied.

Don't expect to do a good job if you are rushed.

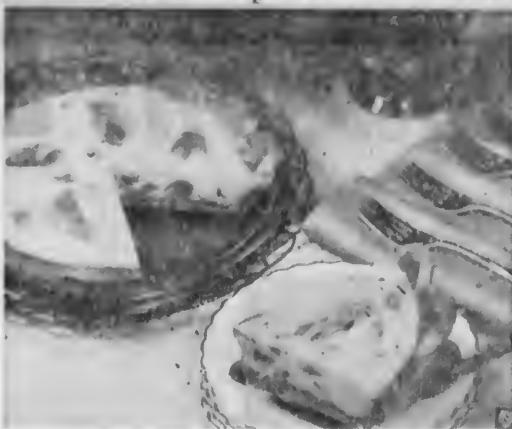

Don't put flowers near heat, in direct sun or drafty places.

Don't forget to keep fresh water in your containers.

Don't forget to pull off all wilting florets just before they are placed for judging.

Don't forget how much pleasure your finished arrangement will bring to those viewing the show.

### Cool Refreshing Apricot Ice Cream Pie

Here's a frosty pie that should be to your taste, this summer. It's cool and creamy, the apricot just tart enough to lift this from the category of those delicious, but drowsy desserts. The crust is made from refrigerated cookies and bakes in a scant ten minutes—not long enough to know the oven has been on! The filling is a mixture of ice cream and canned apricot pie filling.

Emphasize focal point.

Do make your longest stem approximately one and one-half times the height or width of your container.

BUCKHORN LODGE

24 Luxurious Guest Rooms

ALL 24 GUEST ROOMS in the luxurious new Buckhorn Lake Lodge have television, telephone, two double beds and other modern furniture, thick wall-to-wall carpeting, tiled bathroom, and a spectacular view of Buckhorn Lake. They are designed for comfort and enjoyment. And all of the rooms are air-conditioned and have individually-controlled heat.

Remarkable View From Buckhorn Lodge Lobby

BUCKHORN LODGE LOBBY offers this remarkable view of the lake and mountains. Pleasing decor and modern furniture also help to make the lobby headquarters for informal chats and relaxation. A glass-enclosed television room next to the lobby provides added privacy. Also contributing to the atmosphere of comfort and relaxation are the spacious wall, open-seam ceiling, and a fireplace on the lake side.

As Contractors, it gives us added pleasure and we point with pride to the fact that we constructed the beautiful Buckhorn Lodge.

A famous Quote says, "A thing of Beauty is a Joy Forever", and we feel confident that tourists and Kentuckians from all over will continue to enjoy the comforts and beauty of this beautiful structure.

We are also very proud to be building the new Perry County Courthouse. This, too, will be a boost forward for this area.

Congratulations, Eastern Kentuckians on Your Forward March.

Buckhorn Students Show Art Exhibit

A special treat is in store for the guests attending the dedication of the new Lodge at Buckhorn Lake on Friday, August 14.

Marjorie Howarth, art teacher at Buckhorn School, has arranged for an exhibit of the students' work to be shown in the recreation room of the new Lodge.

The works consist of oil paintings, pencil sketches, pen and ink drawings and water colors. Most of the pictures are done by first year Art students. There are a few crayon drawings and string paintings that the elementary grade children did.

Mrs. Howarth will begin her third year of teaching Art in Buckhorn. She and her husband, Carl, who is manager of Kentucky Mountain Crafts in Jackson come to Eastern Kentucky from Alaska and Philadelphia, Pennsylvania. They reside on Squabble Creek in Buckhorn.

## Buckhorn State Lodge Personnel

It takes many individuals to run a lodge and the Buckhorn Lodge employs approximately 60 persons. Following is a list of some of the people who will endeavor to make all visits and endearments to the lodge pleasant.

Kenneth Kirchner, manager, Hilda Rakes, Clerk Typist, Arlis Fields, Barbara Sue Bolin, Florence Sandlin, Juanita Smith, and Maggie Whitaker. Mrs. Wayne Turner, and Filmore McIntosh, desk clerks, Cassie Newell, room supervisor, and Dora Pelfrey is hostess.

Preparing the delightful cuisine served in the dining room will be chef Lorraine King, assisted by cooks Allene Sluder, Kenneth Kirchner, manager, Florence Sandlin, Juanita Smith, and Maggie Whitaker. The bell boys are Andrew Beck, Michael Fugate, and Mar-

tin Douthitt.

Serving the food will be waitresses Mary Rose Whitaker, Nading Galdard, Helen Smith, Malverie Spicer, Vivian Holliday, Dorothy Gilbert, Mona Turner, and Patricia Campbell.

### Baptists Observe 66th Anniversary

Reverend T. H. Harding, pastor of the First Baptist Church, Hazard, announced the approaching homecoming and 66th anniversary of the church August 23-30. In keeping with the Southern Baptist Convention emphasis upon "Baptist Heritage" this year, the local congregation has planned this week of activities.

All living former pastors are returning for the week. The program will include nightly services at 7:00 p.m., with a different pastor speaking each night. The general theme for the homecoming is "Christ's Living Church" . . . Thursday, August 27th is anniversary day on which the church will celebrate its sixtysix years of organized Baptist witness in the city of Hazard.

Prior to the evening service a church-wide banquet will be held in the Fellowship Center of the church in honor of all former pastors, members, former members, and friends of the church. Efforts have been made to contact all former members, living in other cities, and invite them to this celebration.

A new history of the church is being written and will be made available sometime this year. Those serving on the history committee are Mrs. Perry F. Gorman, Mrs. Howard Johnson, Mrs. H. A. Spalding, and Mrs. Prentiss Baker.

## Funeral Services Held at Pippa Passes For Mrs. Bessie Bell Utter, Age 80

Bessie Bell Utter, daughter of Moses Lanktree and Emma J. Blair, was born in Dayton, Oregon, January 30, 1884 and departed this life, August 3, 1964, aged 80 years, 6 months and 3 days.

She leaves to mourn her loss four children: Frank L. Cox of Portland, Oregon; Earl H. Utter, Vancouver, Washington; Edward Utter, Veneta, Oregon and Louise G. Pritchard of Pippa Passes, Ky. A daughter, Celia Rose, died in infancy.

A half-brother and a half-sister preceded her in death and a younger sister died at the age of 3.

Five grandchildren are living: Richard Utter, Shasta Lee Dawson, Janet Utter, Joanne Utter and Norman Utter. One grandchild died in infancy. Three great grandchildren are living.

Mrs. Utter completed her education in the Oregon public schools and was married at the age of 16 to Emil Utter of Eu-

gene, Oregon. They resided in Oregon where Mr. Utter was employed by the Southern Pacific Railroad as a steel inspector. Mr. Utter died in 1945 and Mrs. Utter went to live with her daughter and son-in-law, Mr. and Mrs. Walter Pritchard, with whom she made her home until the time of her death.

She pioneered in Oregon in an early day but was faithful to her duties as a homemaker, and was a loving mother, a good neighbor, and a respected citizen.

In 1956 she united with the Episcopal Church of Port Orford, Oregon and remained true to her faith until the time of her death.

Funeral services were held in the Caney Baptist Chapel, Pippa Passes, Kentucky with Mr. George McDermott in charge assisted by the Reverend Lawrence Baldridge.

The student choir from Alice Lloyd College sang three hymns.

Interment was at Jimmy Graveyard, Onion Blade near Pippa Passes, Ky., at 10:30 a.m. August 5, on a beautiful hillside overlooking Caney Creek and the mountain community which Mrs. Utter had come to know and love as home. The Reverend Lawrence Baldridge was in charge at the graveside services.

Pall bearers were: Bruce Taylor, Ralph Lewis, Quentin Bogart, Gene Combs, Ois Jacobs and Alfred Godfrey, all of Alice Lloyd College.

Funeral rites were held Friday in Charleston, West Virginia, for Israel Kantor, 67, a retired Charleston businessman and former clothing merchant in Hazard, who died Thursday in a Charleston hospital.

Mr. Kantor ran a men's clothing store in Hazard during the 1920's. The store was situated across the street from the Virginia Theatre.

He was a member of the B'nai Jacob Synagogue, the Elks Lodge, the Masonic Lodge, and the Scottish Rite.

## Local Jehovah's Witnesses Attend District Convention

Delegates from the Isom Congregation of Jehovah's Witnesses returned Sunday night from a four day convention in Greenville, South Carolina.

Richard Flint, president minister, said the local delegation was part of the crowd of 7,073 who attended the main talk, "Peace Among Men of Good Will" or Armageddon - Which? According to officials it was the largest convention ever held in Greenville.

Mr. Flint said the purpose of 1,400 volunteers were needed the assembly was to review to operate the more than 200 Bible instructions on Christian parts designed for the conduct and their ministry, smooth operation of the convention. This was done by means of talks, demonstrations and discussions as well as practical application in the field as delegates made house-to-house calls throughout Greenville.

The theme of the convention was "Fruitage of the Spirit" based on the Bible scripture at Galatians 5:22.

The highlight of the assembly included a baptism of new ministers and witnesses. A total of 127 symbolized their dedication to God by water immersion.

The program also included a model ministry school designed to help each congregation improve their own local ministry school. Such a school program is held each week in all Kingdom Halls of Jehovah's Witnesses worldwide.

The main talk on Sunday saw the peak attendance. Bruce E. Giffin, district supervisor for Jehovah's Witnesses, clinched his lecture by saying, "Many prominent people, political, military and religious have used the term 'Armageddon' to refer to the so-called last war between the forces of good and the forces of evil."

In order to properly evaluate the meaning of the term 'Armageddon' one would have to see how it is used in the Bible and to what it refers. The word 'Armageddon' is found only once in the Scriptures and that is at Revelation 16:16. Unquestionably as it is used in this text, it is not referring to a war just between human factions, but involves Almighty God."

A number of the local delegates assisted in the organization of the assembly. A corps of

20 Miles From Where?

Many motorists mistakenly assume that mileposts such as this on Kentucky's Interstate and Parkway system denote the mileage from one town to another. Actually, the mileposts are used by police and other officials to pinpoint for ambulances or other emergency aid the location of accidents or vehicles in distress. The mileposts begin at zero on the western and southern borders of states and increase numerically until reaching the opposite border.

## Sen. Cooper Reports On Ky. Road Bill

Senator John Sherman Cooper (R-Ky.), the ranking member of the Senate Public Works Committee which under writes the legislation for road construction, reported this week that the Highway Authorization Bill developed in the Committee has been passed by Congress.

The bill provides a total of \$73,203,000 for building Kentucky roads in the year beginning July 1, 1965.

Senator Cooper said that this total amount includes \$7,500,000 for primary roads, \$6,325,000 for secondary roads, and \$2,502,000 for roads and streets in urban areas, all of which will be equally matched by Kentucky State Highway funds.

On roads which are a part of the Interstate Highway System, Senator Cooper explained that under the revised schedule previously adopted by the Congress, the federal government pays 90% of the cost, and he said that almost \$60,000,000 will become available for this work in Kentucky in the fiscal year beginning next July.

The Senator added that similar amounts would be available for the following year 1966-1967, but the Bureau of Public Roads has not yet made the final determination of the proportion of allocations allowed each State according to the standards set by Congress.

# Let's Talk about Money

...it's a fascinating subject

**M**oney is very beautiful stuff to look at... not so much, perhaps, because of its artistic design as because the sight of it reminds us of the many pleasing and necessary things it can do for us.

... Yet... if we're not careful about how we handle it, we may thoughtlessly cheat ourselves out of some of the finer things our money can bring us.

... Because only a part of each dollar we spend puts actual goods and services into our hands. Whether we like it or not... some of that dollar also goes to-

ward the upbuilding and support of the community in which it is spent... to pay for the schools and churches, the roads and streets, the police and fire protection and other social facilities that make up modern living... and to make stronger that community's economy.

... If the area benefitting from our trade is that in which we live, then we get for ourselves all that our hard-earned money pays for... and often many times over... in better business, better jobs, better living among more good and useful neighbors.

Buy... where  
your trade has  
a chance to  
improve your  
own economy

## Vacation Bible School Ends at Presbyterian's "Log Cathedral"

By Bernice Hiser

Vacation Bible School is going on at the Buckhorn Presbyterian "Log Cathedral," at least report there was an attendance of 82. Some teachers were Mrs. Katie Baker, Mrs. Polly EverSOLE Riley, Pat Wooton, and Mrs. Eva Hamblin Combs with the preacher and his wife.

Squire Riley and friend from Scottsboro, Indiana, were visitors on Squabble Creek this week, spending the nights at their unoccupied home next door to us while here.

Granville Turner, formerly at the Agency and a student at Buckhorn High, is just home from the armed forces and is visiting around Buckhorn. He

visited at the home of Eldon Riley Thursday. Granville is a nephew of Aaron Turner of Hazard. He is planning to go to California to work when his visit here ends.

We are glad neighbor Delore Riley is home from the hospital. Donna Rice of Marion, Indiana, and family are visiting her uncle John Wilson Minter and family at the Agency and other relatives in Owsley County.

Mrs. Ford Barger formerly of Bowlingtown is now employed

at the Patty A. Clay Infirmary in Richmond. The Ford Bargers are one of the families forced to move by waters backed up by Buckhorn Dam.

Mrs. Minta Stamer Morris and your writer visited Mrs. Hattie A. Combs at the top of Strong Fork Hill Sunday afternoon.

Buckhorn High students who were students in Mrs. Margie Howarth's art class last year are having an exhibit of their work at the dedication of Buckhorn Lodge Friday.

Mrs. Mandy May and Lily McDaniel visited Susan Hiser Sunday afternoon.

Mr. and Mrs. Don Barrett are now living at an Air Force camp in Georgia. Mrs. Barrett is the former Virginia Collins, a 1964 graduate of Buckhorn High School.

Mrs. Ella Wooten Edwards has been ill for some time, but is somewhat improved at present.

Mr. Ed McIntosh and children have been cleaning up the premises of the Fred Riley place, next door to us on Squabble Creek, preparatory to moving into it.

Mr. Berry May visited his sister-in-law Hattie Combs Friday. The Hisers were business visitors in Jackson Saturday when we went into one business place who should appear but our next door neighbor E. G. (Rocky) Rutherford.

Neighbor Eldon Riley has been keeping us supplied with muskmelons, the long fragrant kind, the past week.

Among the very fine books we have read this summer from the Bobby Davis Memorial Library are: biographies of James Boswell, John Donne, Al J. Cronin, and John Filson of Kentucky.

In regard to Mr. Green Hamblin's remark that they were glad to furnish their own tools in order to get work on the government projects back then, I am reminded of a story my father-in-law Bill Hiser in Pike County, Ohio, used to tell me. It seems that one of his neighbors had fallen on very hard times and the town authorities had loaded him into a wagon and started out with him to where they were to sell him for vagrancy. A well-to-do neighbor farmer thought it would be a shame to allow such a thing to happen to the poor unlucky man, especially in view of the disgrace it would bring upon his eight innocent little boys and his six little girls; so he loaded up a wagon load of corn and raced his mules till he caught the wagon with the unfortunate man.

"Fellers, here is a wagon load of corn for Eph. Long as he's goin' that much property you can't sell him as a vagrant; now, can you?"

Eph raised up from where he reclined on an old quilt in the wagon bed. "Ain't hit shelled?" he asked.

"No."

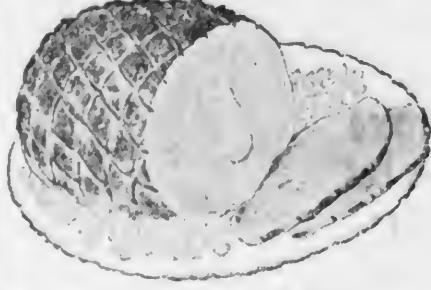

"Well, drive on, men," he said, wearily, lying back down.

## Perry County Progress

Buckhorn Lodge Dedication August 14

A Bend View on Buckhorn Lake

SCENIC VIEW OF A BEND on Buckhorn Lake is available from this vantage point on the 1,260-acre water playground. The lake is an impoundment of the Middle Fork of the Kentucky River near Buckhorn. In the lake are large and smallmouth bass, crappie, white bass, channel catfish, and rough fish.

Message From Dewey Daniel, President of Peoples Bank.

Dewey Daniel

Since the inception of the Buckhorn Watershed and approval of the dam we have foreseen many improvements as a result of the dam, one of which is the Buckhorn Lake State Park and Lodge.

We are happy to have taken a small part in procuring this worthwhile project for our area and Congratulate our state officials for their foresight in obtaining the Buckhorn Lodge.
